FOR IMMEDIATE RELEASE

District of Port Edward hires new Manager of Public Works

PORT EDWARD – The District of Port Edward is pleased to announce the hiring of new Manager of Public Works, Glenn Morphy, to lead the District public works operations and maintenance in the coming years.

Glenn has served as Director of Public Works for the District of Lantzville, and similar roles for the Village of Gold River, Bella Bella and the City of Calgary. With over 30 years of municipal government experience, Glenn brings a wealth of knowledge in public service delivery, including engineering, utilities, project management and infrastructure maintenance.

“We are excited to have Mr. Morphy join our staff and bring his expertise to our public works team,” said Kris Schumacher, CAO for the District of Port Edward. “As we look to initiate some significant infrastructure projects in early 2026, the timing couldn’t be better and we’re confident he will add a high degree of oversight to keep our operations running smoothly.”

Glenn enjoys fishing, building models and taking walks with his wife and dog Riley. He holds an Architectural Diploma from Algonquin College in Ottawa, Ontario, and holds certificates in urban drainage and sewer design and advance project management among others.

“After spending three rewarding years working for the Heiltsuk First Nation in the beautiful and culturally rich community of Bella Bella, I look forward to experiencing the north coast and what the District of Port Edward has to offer,” said Morphy. “I trust my many years of experience will be an asset to the community while striving to continually improve and maintain our infrastructure.”
