

DISTRICT OF PORT EDWARD

NOTICE

NOTICE OF SEWER FLUSHING STARTING JUNE 17, 2025

Please be advised that **sewer main flushing will begin on Tuesday, June 17, 2025**, within the District of Port Edward. This essential maintenance work will continue for approximately **two weeks**.

Why is this being done?

Routine sewer main cleaning is necessary to protect public health, prevent blockages, and maintain the proper functioning of the wastewater system.

What to Expect:

- Toilets, sinks, and other appliances **can still be used** during flushing
- Air pressure may cause **noise in pipes** and could result in **splashing from toilets, sinks, or drains**
- To avoid spills, we recommend **keeping toilet lids closed** and **sink drains plugged** when not in use
- Temporary **odours** may occur—opening windows and running water can help alleviate this
- **No chemicals are used**—only high-pressure water

We appreciate your cooperation and understanding as we complete this important maintenance.

Questions?

Please contact the District Office at **250-628-3667** for more information.

Thank you for your support.
