# NOTICE OF WATER CONSERVATION

## Temporary Issue at Water Treatment Plant

The **District of Port Edward** is currently experiencing an issue at the **Water Treatment Plant** that may affect water availability. Our team is actively working on repairs, and we anticipate the issue will be resolved within the next **three days**.

In the meantime, we kindly request that all residents **use water conservatively** to help maintain water supply levels. Here are a few simple ways you can help reduce water usage:

- **Limit non-essential water use** (e.g., avoid washing vehicles or watering lawns).
- **Take shorter showers** and turn off taps when not in use.
- **Use a basin or plug the sink when washing dishes instead of letting the water run.**

We appreciate your patience and cooperation as we work to resolve this issue as quickly as possible. Updates will be provided as soon as more information is available.

Thank you for your support in helping us manage our water supply.
